- **Running, an animation by Shreyom Gosh '12** (MFA, Kanbar, Animation and Digital Arts), was presented at the International Trickfilm Festival in Stuttgart, Germany. The event, curated by Hassan Muthalib, a historian of animation from Kuala Lumpur, Malaysia, is an homage to Lotte Reiniger who made the first silhouette animation feature in 1926. Running will be in the program about silhouette animation.

The International Trickfilm Festival, founded in 1982, has developed into an essential event for animation film in Germany over the past 30 years and is one of the biggest and most important festivals for animated films around the world.
